### **SSFD**

#### OPERATIONS

- Responded to 248 calls: One Fires, 83 EMS, 17 Service, 108 Good Intent, 33 False Alarms
- Units responded to reports of a carbon monoxide alarm at the 2000 block of Wheaton Way. When the homeowner opened the garage door, the gas monitor began to alarm three feet inside the door. Further investigation found no readings higher than 5 ppm. Two furnaces and a stove were the only appliances operating on gas. The crew advised the homeowner to contact a service technician or gas company to ensure appliances were operating correctly.
- Units responded to reports of a possible structure fire in the 5400 block of Glenridge Drive. The source was an electrical fixture in the bathroom ceiling. The fire and smoke conditions were localized to the unit. Crews extinguished the fire with the use of one water can and ventilated the structure. A light amount of charring (approximately 24" along the board face) was present on a structural 2'x4' that the fixture was mounted to. Crews checked the structural members for heat signatures using a thermal imaging camera, as well as monitored the carbon monoxide levels in the building using multi-gas monitors. Residents were evacuated outside the structure and

measures were taken to keep them warm, while they were outside the building. As soon as overhaul and ventilation were complete, residents were returned to the interior of the building.

- Units responded to reports of a construction worker who fell at the intersection of Peachtree Dunwoody Road and Lake Hearn Drive. Upon arrival, the crew found one person in a small hole between a concrete slab and a retaining wall with the fall estimated at 30 feet. The worker was extricated from the hole and transported by EMS to the hospital.
